

Product description:

This Wall-Mounting Kiosk provides customers with services such as account detail, money transfer and cards top up. Integrated Flatten design was applied that push visual effect to another level. Furthermore, the user-friendly leaning style is good for card reading and operating. Product layout was optimized to be lighter, prettier and 30% smaller than the traditional machines.

Basic Functions :

- To pay water bill, electric bill, telephone charges, gas bill and more
- To top- up IC card: transportation card, water-card, electricity card, gas card and more

Features :

- Compact design, low power consumption
- Embedded operating system, high performance & stable application
- High security with ATM full hardware encryption technique
- Color TFT touch monitor and voice prompts, easy to use
- Support automatically server-side software download, easy to upgrade
- Support remote management, low management and maintenance cost
- Support mobile wallet recharging & small amount bill pay

Specifications - Support complete SDK for development

Processor	Cortex-A9, 1GHz dual processors
Memory	2GB DDR3
Flash	8GB eMMC
Card reader modules	Magnetic card reader
	IC card reader
	SAM card reader
	Contactless IC card reader
Encrypted PIN Pad	PCI EPP ZT598H
Communication	Network interface
	Serial port
	USB
	SD card interface
Peripherals	Thermal printer, 80mm
Display	8 inch TFT LCD, 800*600
Power supply	Input voltage: AC220V 50-60Hz
Environmental	0°C-50°C operating temperature
	-20°C-70°C storage temperature
	10% -90°C relative humidity, non-condensing
Operating system	Linux 3.0
	Interface and above
	Android 5.1 and above
